

ANSI  
Accredited Standards Committee X12  
Vision

To be an innovative leader in the development of cross industry e-commerce standards that improve global business process interoperability and facilitate business information exchange.

Mission

- To develop high quality e-commerce standards in an open consensus environment
- To drive the adoption and implementation of the standards we develop
- To collaborate with other standards bodies to ensure our standards are interoperable
- To promote and provide education about the standards we develop

Approved by the ASC X12 Steering Committee: September 5, 2008
